Dirtex® Liquid Cleaner

Description

Liquid Dirtex® is an excellent concentrated cleaner that is phosphate-free for use where phosphates are prohibited. Color signals the strength of the solution (from pale green to yellow as more Liquid Dirtex® is added).

Application

For general purpose and household cleaning. Liquid Dirtex® is effective on soot, grease and grime, and even dissolves wax build-up. It is ideal for cleaning walls and woodwork prior to repainting or rewaxing. It also leaves surfaces clean without rinsing or streaking.

Directions

General cleaning: Dilute 2 oz. Liquid Dirtex® per gallon of warm water. Soak and wring mop, sponge or cloth almost dry. Scrub over dirty surfaces with firm strokes. Wash walls from bottom up to avoid streaking. Wipe surfaces clean and dry. Wipe up drops from hardwood floors to avoid spotting.

Greasy cleaning: Dilute 4 oz. Liquid Dirtex® per gallon of warm water. Soak and wring out mop, sponge or cloth and wash over surfaces until dirt has lifted. Then wipe over surfaces to pick up dirt and excess solution. Do not flood cleaner onto work areas. Rinse with hot water after cleaning prior to repainting.

Wax removal: Dilute 8 oz. Liquid Dirtex® per gallon of warm water plus 2 oz. of household ammonia. Apply liberally, allow to stand 15 minutes, then scrub with brush or firm mop. Wipe up dirt and old wax with mop or sponge.

Important label information

KEEP OUT OF THE REACH OF CHILDREN. Rubber gloves are recommended for prolonged use.
