

Deglosser Prepaint Bonder & Cleaner

- Cleans surfaces after paint removal.
- Etches previously painted surfaces for better paint adhesion.
- Saves time by eliminating sanding between coats.
- Removes grease and oil from unfinished woodwork before staining.

SAVOGRAN

Deglosser Prepaint Bonder & Cleaner

Description

Cleans oil, grease, paint remover sludge from wood and metal, and heel marks, dirt and pencil marks from unfinished wood. Improves bonding of new paint, varnish and lacquer to old finishes.

Application

One gallon of cleaner covers approximately 400 square feet of surface area.

Directions

Store in cool place. WORK OUTDOORS. If you work indoors, use only in well-ventilated area (see warnings above). Protect eyes with goggles, wear solvent-resistant gloves. Protect skin from splashes. Shake sealed container well-cover cap with cloth to prevent spraying and open slowly to relieve pressure.

- Apply DEGLOSSER® evenly and liberally with clean cloth over an area of 3 or 4 sq. ft. at a time. Change wiping surface of cloth and/or change cloth often and as necessary to remove and avoid redepositing loosened and dissolved grime.
- Carefully examine cleaned surfaces. Some old gloss and semigloss finishes resist solvent deglossing and must be lightly sanded for best new-finish bonding. Surface should look dull after deglosser has dried.
- All surfaces must be dry before refinishing. Apply new finish soon after cleaning, and before airborne contamination can be deposited.
- Latex or other emulsion finishes will not bond and lacquer may not dry if applied to unclean or glossy surfaces. Follow the coating manufacturer's instructions.

Important label information

DANGER: POISON! FLAMMABLE. MAY BE FATAL OR CAUSE BLINDNESS IF SWALLOWED. VAPOR HARMFUL. SKIN AND EYE IRRITANT.

**KEEP OUT OF REACH OF CHILDREN
CLOSE CONTAINER AFTER EACH USE
NEVER STORE IN UNLABELED CONTAINERS
USE ONLY WITH ADEQUATE VENTILATION**
