- Cleans and softens hardened natural and nylon paintbrushes.
- Softens all dried paints and cleans wet oil paints.*
- Fast-acting solution cleans oil paints from brushes between coats.
- Water-rinsable for easy cleanup.

*Not recommended for wet latex paints

SAVOGRAN

KwikEEZE Paintbrush cleaner

Description

Cleans hardened oil and dry latex paints, enamels, varnish, lacquer and shellac from natural and nylon bristle brushes (Do not use on wet latex or other emulsion paints. Not recommended for other synthetic brushes).

Directions

Store in cool place. WORK OUTDOORS. If you work indoors, use only in well-ventilated area (see warnings above). Protect eyes with goggles, wear solvent-resistant gloves. Protect skin from splashes. Shake sealed container well-cover cap with cloth to prevent spraying and open slowly to relieve pressure. This material is not satisfactory for some paints and brushes. See side panel for further information.

- Cover bristles with KWIKKEEZE[®] and soak. As paint softens, open bristles with brush comb or fork to speed action.
- Soak hard paint overnight. Cover container with aluminum foil to slow evaporation. Paint will soften more quickly if solution temperature is 70°-90°F.
- Remove softened paint from heel and core of brush with brush comb. Work brush in KWIKKEEZE[®] and press out dirty cleaner. Rewash in fresh cleaner.
- Wash brush in warm water solution of TSP heavy duty cleaner. Work through until bristles are not sticky. Rinse with clean water.
- Shape and straighten wet bristles, wrap brush in paper to conform to original shape and lay flat to dry.
- Pour used KWIKKEEZE[®] into labeled container, screw on cap and let sludge settle. Clear liquid may be reused.

Important label information

DANGER: POISON! EXTREMELY FLAMMABLE. MAY BE FATAL OR CAUSE BLINDNESS IF SWALLOWED. VAPOR HARMFUL. SKIN AND EYE IRRITANT. Before use, always read all information and warnings on container. Material safety data sheets available upon request.
