- Concentrated.

SAVOGRAN

Dirtex® House Wash Heavy Duty Siding cleaner

Description

House Wash is a concentrated product specifically formulated to clean dirt and grime from exterior surfaces. Recommended for cleaning painted wood, metal, vinyl, stucco and aluminum siding.

Application

The product can be applied by hand or with a pressure washer. House Wash is a concentrated product - One gallon of cleaner will make up to 16 gallons of cleaning solution and clean approximately 6400 square feet. Mildew stains can be removed with the addition of bleach.

Directions

Hand cleaning: Add 8 ounces of House Wash per gallon of water. Use a nylon scrubbing brush dipped in solution to scrub area. Rinse well. **Mildew stains:** Remove by washing with solution of 16 ounces House Wash per gallon of warm water with 1 quart chlorine bleach added. **Pressure washer:** Add full strength to detergent reservoir or place pressure washer siphon tube directly into container. Formulated for injector dilution ratios up to 16:1.

NOTE: Do not allow dirty solution to dry on windows. Staining can occur. Spray windows with clean water before and after application. Spray fine mist of fresh water on vegetation before and after application to protect from burning. Runoff is not harmful to plants.

Important label information

WARNING: HARMFUL IF SWALLOWED. EYE AND SKIN IRRITANT (may cause burns). Before use, always read all information and warnings on container. Material safety data sheet available upon request.
