1. Product and Company Identification

Product Name: KWIKEEZ MODERN    Product Code: 270N
Savogran Company
259 Lenox St
PO Box 130
Norwood, MA 02062-0130
Information Phone: 781-762-5400
Emergency Phone: 800-424-9300
Website Address: www.savogran.com

Synonyms: 01272

Product Use: PAINT BRUSH CLEANER

2. Hazards Identification

GHS Ratings:
- Flammable liquid 2
- Eye corrosive 2A
- Organ toxin single exposure 3

GHS Hazards
- H225 Highly flammable liquid and vapour
- H319 Causes serious eye irritation
- H335 May cause respiratory irritation
- H336 May cause drowsiness or dizziness

GHS Precautions
- P210 Keep away from heat/sparks/open flames/hot surfaces – No smoking
- P233 Keep container tightly closed
- P240 Ground/bond container and receiving equipment
- P241 Use explosion-proof electrical/ventilating/lighting equipment
- P242 Use only non-sparking tools
- P243 Take precautionary measures against static discharge
- P261 Avoid breathing dust/fume/gas/mist/vapours/spray
- P264 Wash thoroughly after handling
- P271 Use only outdoors or in a well-ventilated area
- P280 Wear protective gloves/protective clothing/eye protection/face protection
- P312 Call a POISON CENTER or doctor/physician if you feel unwell
- P303+P361+P353 IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower
- P304+P340 IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing
- P305+P351+P338 IF IN EYES: Rinse continuously with water for several minutes. Remove contact lenses if present and easy to do – continue rinsing
- P337+P313 If eye irritation persists, get medical advice/attention
P370+P378 In case of fire: Use use carbon dioxide or dry chemical
P405 Store locked up
P403+P233 Store in a well ventilated place. Keep container tightly closed
P403+P235 Store in a well ventilated place. Keep cool
P501 Dispose of contents/container in accordance with local/regional/national/international
regulations

3. Composition/Information on Ingredients

<table>
<thead>
<tr>
<th>Chemical Name</th>

</thead>
<tbody>
<tr>
<td>METHYL ACETATE</td>
<td>79209</td>
<td>90.00% - 100.00%</td>
</tr>
<tr>
<td>METHANE, SULFINYL BIS-</td>
<td>67685</td>
<td>1.00% - 5.00%</td>
</tr>
</tbody>
</table>

4. First Aid Measures

Inhalation: If illness occurs, remove patient to fresh air. If breathing is difficult, give oxygen. If breathing has stopped, start artificial respiration. Call physician immediately.
Eyes: Flood with plenty of water with eye lids held open for at least 15 minutes and get medical attention promptly.
Skin: Remove contaminated clothing. Wash exposed area with soap and water. If symptoms persist, seek medical attention. Launder clothing before reuse.
Ingestion: Immediately give 1 or 2 glasses of water and call physician, hospital emergency room or poison control center for way to induce vomiting. Get medical attention promptly. Never give anything by mouth to an unconscious person. Aspiration of material into lungs can cause chemical pneumonitis which can be fatal.
Treat symptomatically. No specific antidote available.

5. Fire Fighting Measures

Flash Point: -13 C (9 F)
LEL: N/A
UEL: N/A

Extinguishing Media: Water fog, regular foam, carbon dioxide or dry chemical.
Fire/explosion: DANGER! EXTREMELY FLAMMABLE. Keep away from heat, sparks, flame and all other sources of ignition. Do not smoke. Extinguish all flames and pilot lights, and turn off stoves, heaters, electric motors and all other sources of ignition during use and until all vapors are gone. Beware of static electricity that may be generated. May form carbon dioxide and carbon monoxide, various hydrocarbons.
Fire Fighting: Wear self-contained breathing apparatus with full face piece operated in pressure-demand or other positive pressure mode. Straight water steam will spread fire. Use water spray to cool fire exposed containers and fire affected zone until fire is out and danger of reignition has passed.

6. Accidental Release Measures

Methods/Materials for Containment and Cleaning Up:
Eliminate all ignition sources. Runoff may create fire or explosion hazard in sewer system. Absorb on fire retardant, liquid-absorbing material. Shovel up and dispose of at an appropriate waste disposal facility in accordance with current applicable laws and regulations, and product characteristics at time of disposal. Prevent spills from entering storm sewers or drains and contact with soil.
Small spill: Wipe or scrap up any material. Wash area thoroughly with detergent and water; ventilate adequately with good fresh air movement at floor level.

Large Spill: Wear proper protective equipment. Stop spill at source, dike area of spill to keep from spreading and keep out of ground water and streams. Transfer material to metal containers. Absorb remainder with sand, clay, earth, floor absorbent or other material and shovel into containers. Then wash area thoroughly with water and detergent. Ventilate adequately with good fresh air movement at floor level. Do not restart pilot lights or operate electrical devices or other sources of sparks, flames or heat until all vapors (odors) are gone.

7. Handling and Storage
Do not breathe material. Keep container closed. Use only with adequate ventilation. Avoid contact with eyes, skin and clothing. Containers of this material may be hazardous when emptied. Since emptied containers retain product residues (vapor and liquid), all hazard precautions given in the data sheet must be observed. All five-gallon pails and larger metal containers should be grounded and/or bonded when material is transferred.

Store in cool place, out of hot sun. All containers are subject to damage in storage and transit. Damaged containers may start leaking immediately or at a later time. Do not store flammable materials in areas with widely fluctuating temperatures and do not store where vapors may come in contact with flames, sparks, or heat. Flammable materials should not be stored in below ground areas that cannot be adequately ventilated at floor level. Do not use cutting or welding torches near full or empty containers. Closed containers may explode if exposed to extreme heat. Never use internal gas or air pressure to remove contents from a container. Emptied containers may retain product residues (e.g. vapor and liquid or solids); therefore all precautions given in this sheet must be observed until a container is thoroughly cleaned or destroyed. All containers must be completely drained, (less than one inch of material in the bottom of 55 gallon container) before disposal. If possible emptied container of 55 gallons or more should be given to reconditioner for cleaning.

8. Exposure Controls/Personal Protection

<table>
<thead>
<tr>
<th>Chemical Name / CAS No.</th>

<th>ACGIH Exposure Limits</th>
<th>Other Exposure Limits</th>
</tr>
</thead>
<tbody>
<tr>
<td>METHYL ACETATE 79209</td>
<td>200 ppm TWA</td>
<td>200 ppm TWA</td>
<td>Not Established</td>
</tr>
<tr>
<td>METHANE, SULFINYLBIS-67685</td>
<td>Not Established</td>
<td>Not Established</td>
<td>250 PPM TWA</td>
</tr>
</tbody>
</table>

Engineering Controls:
The vapors are heavier than air and due care must be exercised to prevent them from collecting in low, unventilated areas. Vapors may travel along the floor (even under and around closed doors). Adequate ventilation must be provided with good fresh air movement at floor level by normal cross ventilation or preferably good explosion proof exhaust fans. Limit concentration of any solvent in air to exposure guidelines.

Respiratory Protection:
For known vapor concentrations above the occupational exposure guidelines, use a NIOSH approved organic vapor respirator.

Skin Protection:
Use chemical-resistant gloves to avoid prolonged or repeated skin contact.

Eye Protection:
Chemical goggles or safety glasses with side shield.

10. Stability and Reactivity

Chemical Stability (Conditions to Avoid):
STABLE

Incompatibility:
Store separate from methylbromide, Strong oxidizing agents; Strong acids: perchloric acid, periodic acid; Sulfur compounds; Sodium hydride.
Strong oxidizing agents (e.g. nitric acid, permangantates, etc.), strong alkalies (e.g. NaOH, ammonia, etc.), strong acids (e.g. HCl, sulfuric, etc.)

Hazardous Decomposition:
When burned, the following hazardous products of combustion can occur: Sulfur oxides, Carbon oxides, Hydrogen sulfide, Hazardous organic compounds.
May form carbon dioxide and carbon monoxide, various hydrocarbons.
Hazardous polymerization will not occur.

11. Toxicological Information

Mixture Toxicity
This product has not been tested as a whole.

Routes of Entry Anticipated:

Potential Health Effects:
Eye: Can cause severe irritation, redness, tearing, blurred vision
Skin: May cause skin irritation. Prolonged or repeated contact may dry the skin. Symptoms may include redness, burning, and cracking of skin, and skin burns. Passage of this material into the body through the skin is possible, but it is unlikely that this would result in harmful effects during safe handling and use.
Ingestion: Swallowing small amounts of this material during normal handling is not likely to cause harmful effects. Swallowing large amounts may be harmful. This material can get into the lungs during swallowing or vomiting. This results in lung inflammation and other lung injury.
Inhalation: Breathing of vapor is possible. Breathing small amounts of this material during normal handling is not likely to cause harmful effects. Breathing large amounts may be harmful. Symptoms usually occur at air concentrations higher than the recommended exposure limits (See Section 8).

Effects of Overexposure

Contains no ingredients listed as a carcinogen

Aggravation of Pre-Existing Conditions: Persons thought to have heart or respiratory problems should seek medical advice before using solvents of any kind. If signs of allergy develop (breathing difficulty, eye itching, prolonged itching or redness of the skin, headaches, dizziness, etc.) discontinue use of product immediately and consult a physician.
Caution: Drinking alcohol shortly before, or after exposure to some solvents may cause undesirable effects.
Chronic: Intentional misuse by deliberately concentrating and inhaling the product may be harmful or fatal. Reports have associated repeated and prolonged overexposure to solvents with permanent brain, nervous system, liver and kidney damage.

12. Ecological Information
Ecotoxicity: No data available
Persistence and degradability: No data is available on the degradability of this product.
Bioaccumulative potential: No data available
Mobility in soil: The product is soluble in water.
Other Adverse effects: No data available

13. Disposal Considerations
Disposal Methods:
Must be disposed of in accordance with local, state and federal regulations. Do not contaminate any lakes, streams, ponds, groundwater or soil.
Empty Containers:
Empty containers retain product residue (liquid and/or vapor) and can be dangerous. DO NOT PRESSURIZE, CUT, WELD, BRAZE, SOLDER, DRILL, GRIND, OR EXPOSE SUCH CONTAINERS TO HEAT, FLAME, SPARKS, STATIC ELECTRICITY, OR OTHER SOURCES OF IGNITION; THEY MAY EXPLODE AND CAUSE INJURY OR DEATH.
Empty drums should be completely drained, triple-rinsed, properly bunged and promptly returned to a drum reconditioner, or properly disposed.

15. Regulatory Information
TSCA: The intentional ingredients of this product are listed.
OSHA: The intentional regulated ingredients of this product are listed.
CERCLA: SARA Hazard Category: Immediate/Fire
Reportable Quantity: Product Component (Methanol-5000lb)

New Jersey RTK label Information
67685 METHANE, SULFINYLBIS-

Pennsylvania RTK Label Information
67685 METHANE, SULFINYLBIS-

16. OTHER INFORMATION
Hazardous Material Information System (HMIS)  National Fire Protection Association (NFPA)
Judgement of potential hazards of this product is based on information available about individual components listed under section 3 - Ingredients. Direct testing of mixture has not been done. Information given herin is believed to be accurate and is given in good faith. However, no warranty either expressed or implied is made. It is strongly suggested that users confirm in advance of need that the information is current and applicable to their situations.
